## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of group II in the reply filed on 11/7/2007 is acknowledged.

### *Claim Objections*

1. Claim 13 is objected to because of the following informalities: there is no antecedent basis for "said tube". Appropriate correction is required.

2. Claim 23 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Independent claim 13 limits the blood vessel for delivery to a pudic, internal pudic, or external pudic vein. Claim 23 broadens the choice of veins for delivery and thus attempts to broaden, instead of narrow, the scope of the claims.

### *Response to Arguments*

Applicant's arguments, see Affidavit and Response, filed 7/16/2007, with respect to the prior art rejections have been fully considered and are persuasive. The 103 rejections of the claims has been withdrawn.

*Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
